Mohd Sufyan Asghar Kamil

✉ sufyankamil@hotmail.com   📍 Mumbai, India   📞 9004403780

Profile

Experienced Full Stack Developer with expertise in designing, developing, and implementing web applications. Proficient in front-end technologies like HTML, CSS, and JavaScript, Dart as well as back-end technologies like Node.js, Python, MongoDB, SQL and PostgreSQL. Skilled in working with popular frameworks such as React. Committed to creating responsive, visually appealing, and intuitive user interfaces that meet user requirements. Experienced with the latest cutting edge development tools and procedures. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team.

Employment History

Full Stack Developer, Headstrait Software LLP, Mumbai

January 2022 — Present

- Experience working with a fast-paced, small team, dedicated to completing sprints as per Agile methodology.
- Served as a friendly, hardworking, and punctual employee.
- Organized and prioritized work to complete tasks in a timely, efficient manner.
- Developed and maintained full-stack web applications using a variety of programming languages and frameworks, including:

    - Front-End: Flutter, React, JavaScript, HTML, CSS

    - Back-End: Node.js

    - Databases: MongoDB, MySQL, PostgreSQL

    - Version Control: Git

    - Testing: Jest, Selenium

- Worked closely with the design team to ensure consistent user experience and user interface design, resulting in an intuitive and visually appealing application.
- Designed and implemented a RESTful API to integrate the application with third-party services, resulting in a more streamlined and efficient workflow.
- Utilized test-driven development methodologies to ensure code quality and minimize bugs, resulting in a 50% reduction in defects and a 20% increase in development efficiency.
- Utilized Git and other version control tools to manage and maintain the codebase, resulting in a more organized and efficient development process.
- Conducted regular code reviews and provided feedback to other developers, resulting in a more efficient and cohesive development team.

Education

B.E in Computer Engineering, Saraswati College of Engineering, Mumbai University, Mumbai

August 2019 — May 2022

Diploma in Computer Engineering, Babasaheb Gawde Institute of Technology, Mumbai

March 2017 — May 2019

Higher Secondary Education, Maharashtra College of Arts Science and Commerce, Mumbai
June 2015 — March 2017

Secondary Education, Antonio De Souza High School, Mumbai
March 2014 — March 2015

Internships

Web Development and Design Intern, LetsGrowMore, Mumbai

August 2021 — September 2021

Assisted in the design and development of responsive, user-friendly web applications using JavaScript, HTML, CSS, resulting in a 15% increase in user engagement.

Learned and utilized agile methodologies, including Scrum and Kanban, to manage tasks and ensure timely delivery of projects.

Attended training sessions and workshops to improve skills and stay up-to-date with industry trends.

Web Developer Intern, The Sparks Foundation, Mumbai

June 2021 — July 2021

- Developed a Website on Banking System, where used can register and can transfer money to another account.
- Technology Stack: HTML, CSS, JavaScript,Bootstrap, MYSQL

Web Developer Intern, Internship Studio, Mumbai

July 2020 — September 2020

Designed and developed a fully-functional E-commerce website using HTML, CSS, JavaScript and Bootstrap.

Projects

Application Builder

- Collaborated with multiple teams for developing a low-code tool for building end-to-end mobile/web applications.
- Implemented the APP Builder Web UI using Flutter and reception server in NodeJS.

- Developed a service generator and code generator using Nodejs to automate the generation of rest APIs for the backend and flutter code for the flutter client.
- Developed a service generator using Python Flask to automate

Banking System
- Contributed to the development of a banking app, responsible for implementing half KYC, managing the dashboard, and setting card limits.

Diamond Price Prediction
- Developed Diamond Price Prediction project with GUI using Python and ML libraries like Tkinter.

Strudent Management System
- Developed Student Management System project.Use to track, maintain and manage all the data generated by College, including the grades of student, their interpersonal activities records.

Achievenemts

National Level Project Competition, Mumbai

March 2022 — April 2022

Winner of National Level Project Competition for the project Kidney Stone Detection using Deep Learning.

Cisco NetAcad - ISTE National Level CODATHON

2020

PCAP: Programming Essentials in Python

March 2020 — April 2019

Object-Oriented Programming by IIT Bombay

August 2019 — December 2019

Programming Basics by IIT Bombay

August 2019 — December 2019

IRJET - Paper Publish

December 2020
